TABLE OF CONTENTS

Developmental invariance of novelty functions contrasted to age differences in the Moss-Harlow effect 3
By Sam L. Witryol and Glenn A. Wanich

The impact of hearing a fairy tale on children's behavior 9
By William C. Crain, Esterina D'Alessio, Brenda McIntyre, and Leslee Smoke

Playfulness, play, and creativity: A path analytic model 19
By Stephen A. Truhon

Facilitating class-inclusion skills in school-age children 29
By Anthony D. Pellegrini

The role of remembering in planning dependent sequences of action 39
By John A. Meacham and Ann Keller

The effects of children's height on teachers' attributions of competence 45
By Karlsson Roth and Nancy Eisenberg

Perceived locus of control as a function of father absence, age, and geographic location 51
By William W. Lancaster and Bert O. Richmond

Children's artistic abilities: Fact or fancy? 57
By Rosslyn Gaines

Moral reasoning of Piagetian-matched retarded and nonretarded children and adolescents 69
By James V. Kahn

The effects of nonverbal cues concerning possession of a toy on children's proprietary and sharing behaviors 79
By Nancy Eisenberg, Kim Bartlett, and Robert Haake

Young children's deliberate reminding 87
By Susan C. Somerville, Henry M. Wellman, and Joan C. Cultice

Differential development of affective role-taking ability and prosocial behaviors 97
By Spencer Kagan and Kathryn A. M. Knudson

Ethnic awareness in children: Not a unitary concept 103
By Mary A. Newman, Marsha B. Liss, and Felicia Bernardino

The role of peer experience in communication and role-taking skills 113
By Janet Strayer and Meeda Mashal

Children's sorting of objects from categories of differing levels of generality 123
By Lorie Saxby and Jeremy M. Anglin

REPLICATIONS AND REFINEMENTS

Preschoolers' stereotypes about sex differences in emotionality: A reaffirmation 139
By Dana W. Birnbaum

Feedback and locus of control 141
By Harold I. Ayabe, Anne R. Freese, Kyoung-Ja Kim, Masakazu Arakaki, and Keith Y. Kameoka

The relationship between children's development of abilities in social and spatial perspective-taking 143
By Marcie Lynn Eppel, Margaret Gatz, and Susan J. Frank

BOOKS RECENTLY RECEIVED 145

The role of temperament in psychosocial adaptation in early adolescents: A test of a "goodness of fit" model 149
By Jacqueline V. Lerner

Identity status, sex-role orientation, and self-esteem in late adolescent females 159
By Karen J. Prager

Psychological classics: Older works in developmental psychology frequently cited today 169
By Dennis N. Thompson
